Speech Aids

The latest in speech-aid technology

Item	Description	Photo	Price
WB-CV + Microphone: C- Collar H- Headset P- Pencil T- Transdermal Details	<p>ChatterVox</p> <p>ChatterVox is simply the finest portable voice amplifier. It can boost your volume by as much as 18 decibels. It consists of a rechargeable “fanny pack” amplifier and speaker unit along with an extremely comfortable headset microphone. You simply charge the ChatterVox overnight with the included charger, put on the fanny pack and headset, plug the headset into the fanny pack, adjust the volume knob and your set. Nobody beats ChatterVox when it comes to quality and ease of use. ChatterVox – Be Heard!</p> <p>ChatterVox is used for many applications. Anyone who might benefit from a boost in vocal volume would benefit from the ChatterVox. Educators from pre-school through graduate school enjoy the added volume. People with a wide range of disabilities involving low volume can be heard. Business executives enjoy “take your PA system in your brief case with you” portability. P.E. instructors, coaches, and health club instructors enjoy the added volume as well. The applications are only limited by imagination.</p> <p>The following links are examples of ChatterVox in use:</p> <ul style="list-style-type: none"> • ChatterVox in the classroom • ChatterVox for people with speech difficulty • ChatterVox in the boardroom • ChatterVox in the gym or on the field 		\$249.00
SIE-DAL	<p>Servox Digital Artificial Larynx</p> <p>The new digital Servox® speech aid can be used by those who have lost their voice due to injury, illness, or removal of the larynx. It also can be used by those who have a temporary speech loss or are attached to a respiration device. The Servox digital is the only speech aid that lets users program both buttons with different volume and frequency settings. This makes it possible to pre-set the device for use in certain situations.</p> <p>Features:</p> <ul style="list-style-type: none"> • Lightweight (about 4 oz. without battery) • Oral connector with adapter • 2 control buttons for natural sounding pitch variation • Includes carrying cord set with replacement cord protector and hip bag holster • NiMH rechargeable batteries (included) and charger • 2-year warranty on speech device and charger unit 		\$699.00

WB-NV3

Nu-Vois III Artificial Larynx

\$550.00

The NU-VOIS III Artificial Larynx produces a quality voice with full digital electronic control of pitch and volume. It is a much advanced electronic speech aid utilizing the latest in state-of-the-art engineering, electronics, and materials.
