The "Just Like..." Series
Grades 2-8,
Inclusion

The 4 animated stories in the Just Like series offer much-needed support for children facing difficult behavioral issues. Topics such as bullying, disruptive behavior, and dealing with parental expectations and conflict at home are de-mystified by the series. Each story and the accompanying activities facilitate exchange between students, teachers, and guidance counselors about issues relating to personal and social development that affect emotional well-being, behavior, and learning. Each CD in the series is based on a true story, and portrays children who display courage, humor and compassion when faced with adversity. The aim of the series is to give children a sense of hope and a belief that change can happen, as well as to foster empathy, tolerance, and understanding in the classroom, school, and community.
