Musical Leaps and Bounds

Grades Kindergarten-1, Inclusion

Best Software for Kids, 2004, Museum of Science Boston

Details

In My Band, listen to a mixture of timbre, dynamics, and texture using instruments ranging from a guitar to tubular bells. Sequence singing characters however you like to compose new tunes and choreograph dance routines in Let's Dance. The concept of pitch is introduced in Up and Down with a series of amusing monsters. The taller the monster, the higher the sound he makes! Kids move characters closer or further away to make corresponding sounds get quieter or louder as they experiment with dynamics in Mixing Desk. Create scary, serene, angry, happy, and other songs in Moody Jukebox, where the influence of musical textures and dynamics on mood is demonstrated. The Singing Blobs are fun characters that each play a unique note when clicked, and a sustained note when the button is held down.

Minimum system requirements

Win 95, Pentium 133 MHz, 32MB RAM, 800 x 600, 16 bit color

Mac OS 8.5, 68040, 4x CD, 800 x 600

Patch the Puppy Grades Kindergarten-1

[Details](#)

Patch has trampled the flowers in the garden and needs help putting them back together. Preschool youngsters will love developing cross-curricular skills with Patch the Puppy and his animal friends on the farm. They will practice identifying colors, counting, categorizing, completing patterns, and identifying symmetrical objects. Everyday life skills such as sorting laundry, organizing, and washing are clearly demonstrated with fun graphics. Elementary anatomy and animal biology are also introduced. This innovative program is carefully designed to make learning fun for young children.

SwitchIt! Christmas Extra

5 Users
IT-SW20

All the joys of the festive season in one fun-packed, switch accessible program! Enjoy building a snowman, pulling a cracker and decorating the tree, all on-screen with sound and animation rewards.

Can be used in 3 different ways:

Event Sequences:

12 little animations each based upon a simple theme such as decorating the Christmas tree. Each sequence has 5 steps, carefully chosen to maximize speaking and listening.

Picture Building: build pictures and see them animate, or use the one-step option for basic cause and effect.

Flash Cards: flip through a selection of large pictures that relate to the theme

Minimum System Requirements:

Win 95-XP Mac Classic
