Puzzle Power- Zoo and School Days [More on Zoo](#)

Puzzles give students a chance to work and play at the same time. Our Puzzle Power programs teach mouse skills while students develop thinking skills. Manipulating puzzles gives students practice with part-whole relationships, shape discrimination and problem solving. Puzzles provide age-appropriate leisure time activities, too.

Single Switch Games 2 [More on Games 2](#)

We've taken some games similar to the ones you enjoyed as a kid and made them work just right for single switch users. Your kids will love them.

- Bright colored shapes on plain dark backgrounds make the activities easy to see.
- All activities are controlled with a single switch.
- Each activity starts very simple and progresses to very challenging.
- 4 modes of play for students with multiple disabilities, including cause and effect and a special demo mode.
- Top 10 screen shows the last 10 games played, so the player always sees their name in the top 10.
- 14 games, including 4 two-player single switch games!

Spider Maze [More on Spider Maze](#)

If you thought only frogs ate flies, think again. Look out! Here comes Spider Maze. Use your switch to help the spider gobble up the flies caught in his web. But watch out! Only the ladybug can protect the spider from the dreaded cans of bug spray. This exciting game is fun for all ages and helps teach cause & effect, two switch step scanning and single switch auto-scanning.

SwitchIt! Arcade Adventure

This game-style software program helps more advanced switch users build hand-eye coordination and problem solving skills. The goal of the program is to rescue Ziko, a visitor from outer space, and help him return home. Students get to steer a helicopter, reload Ziko's fuel tank, repair his rocket ship, and finally send him off. Users not only click switches to move Ziko, they must also be sensitive to timing. 5 levels of play allow students to advance from simpler to more complex tasks. Arcade Adventure is accessible by switch, mouse, and IntelliKeys. It's suggested for students in the upper elementary grades.

Switch Skills 1
Collection of easy switch timing activities

Racing cars: press when you see a car, to make it race.
Gorilla: press when you see the fruit.
Soccer Shoot: press to kick the ball.
Ready Steady Go: press when the traffic light turns green and you hear "Go!"
Catch the Crocs: press your switch when you see a crocodile. Can you get all six?
Monster House: an introduction to switch scanning. Choose a door and press to see if a monster is inside.
Sunflower: press when the bee reaches the middle of the flower.
