- gives students practice with part-whole relationships, shape
- discrimination and problem solving
- provides age-appropriate leisure time activities, too
- Starts with just 2 pieces and progresses to 16 pieces.
- The pictures are large, clear and easily identifiable.

Occupations
& Water
Animals
ST-PP6

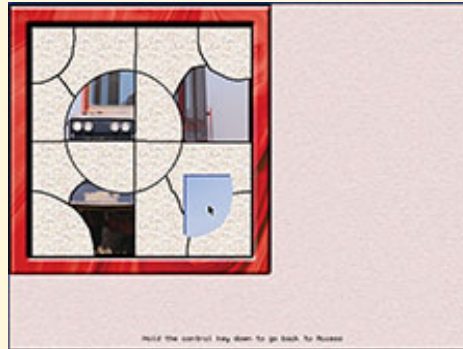

4 different ways of solving puzzles enable all students to be successful:

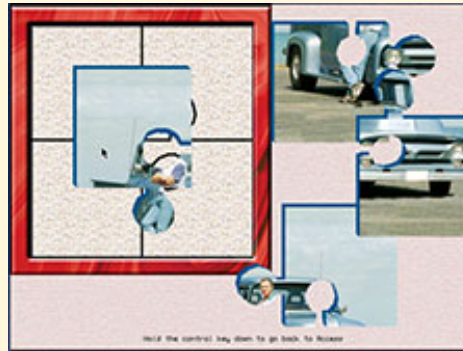

Automatic Placement: one piece appears at a time. Just press the switch or access device and the piece automatically falls into the correct space. Great for the cause and effect learner.

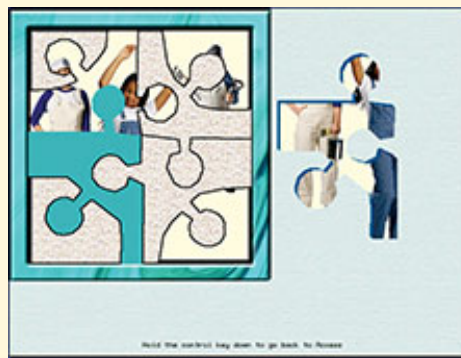

Magnet Mouse: move the mouse cursor over a piece to pick it up. Move the piece over the puzzle until the piece falls into the correct space. Great for learning how to move the mouse cursor.

Click and Drag: press and hold the mouse button to pick up one of the pieces. Then drag the piece over the puzzle until it pops into place. Great for learning how to click and drag using a regular mouse.

Match Scan: one piece is shown. A high lighter shows a possible place in the puzzle. Press the device when the correct place is highlighted. Great for visual discrimination and shape matching.

FEATURES/BENEFITS

- 2 themes per program
