- X-10 Transceiver**
TA-84168
- X-10 Components**
- X-10 communicates between transmitters and receivers by sending and receiving signals over the existing electrical wiring in your environment.
 - The Mini-Relax with X-10 or the Relax II send radio frequency signals to the X-10 Transceiver.
 - The X-10 Transceiver then sends commands to the X-10 modules throughout your environment.
 - A separate X-10 module is required for each appliance you want to control.
