Mice and Alternative Mice

Roller II, Trackball Plus, Joystick II, EasiTrax, n-ABLER, Expert Mouse, and Joystick Plus

Item	Description	Photo	Price
<p> Right Handed Onyx DA-0090-0020 Pearl DA-0090-0030 </p>	<p> AirO₂bic Ergonomic Mouse Now clinically indicated to help prevent and improve Carpal Tunnel Syndrome symptoms </p> <p> The only Ergonomically Functional Neutral mouse that does not require to be gripped and untwists the wrist. It is a 3-Button, scroll wheel mouse, USB "plug-n-play" so no software is usually required for basic operation. Some brands of PC may require an extra module for button assignment which is available from the "User" section of the Support pages. A PS/2 adaptor is provided, primarily for NT 4.0 users, all other users are advised to use USB as this is a high speed optical device that operates more effectively on that basis. PC and Mac compatible, it removes Static Posture, a working position that keeps muscles tensed, which is now associated with the development of impairment in computer mouse users and impedes their use by persons with disability. It is Universally Assistive Technology in that it does not discriminate in either appearance or by its use and, we assert, meets the relevant standards for Accessible Technology, defined under Section 508 Law. </p>		<p> \$99.95 Choose Options: Handedness </p>
<p> Left Handed Onyx DA-0270-0020 Pearl DA-0270-0030 </p>	<p> IT-RE61 EasiTrax Joystick </p> <p> This innovative joystick features 3 multi-function buttons with tactile and visual feedback offering increased usability without cluttering up the joystick with lots of extra buttons. </p> <p> Features: <ul style="list-style-type: none"> • Clever, hidden LED support. • One touch drag lock for easy dragging and dropping. • One touch scroll lock for quick and easy page navigation. • 5 pointer speeds making it suitable for experienced users and those just starting out with a pointing device. • Visual and tactile feedback. • USB with PS2 adaptor. </p> <p> Presented in an age neutral cream, the EasiTrax is suitable for learners of all ages and its simple plug and play setup means it is ready to use in seconds. </p>	<p> LEDs Off </p>  <p> LEDs On </p> 	<p>\$225.00</p>

EM-64245

Expert Mouse Pro Trackball, PS2/USB

Features

- DiamondEye Optical tracking for superior accuracy
- Award-winning Scroll Ring for precise fingertip scrolling
- Exceptional comfort for ultimate productivity
- Large ball for maximum precision and control
- 5 year Kensington warranty

Designed for PCs and Mac's, the new Expert Mouse employs Kensington's Diamond Eye optical technology for smooth, precise cursor movement. Surrounding the ball, we have a brand new implementation of our award winning Scroll Ring that puts scrolling right at your fingertips. More comfortable than ever, the Expert Mouse even comes with a soft new wrist rest-right in the box! You get all of these great new features along with the same, large ball, exceptional control, and ease-of-use that has set the industry standard for more than 15 years.

Win 98, NT, 2000, XP Mac OSX or later

\$119.95

IT-RO71

Joystick II (USB and PS2)

The joystick version of the new Roller II. Color coded buttons match the three new switch ports. USB connector with PS2 adapter. Additional joystick handles: the SoftKnob and T-bar are supplied free. Device not manufactured to withstand severe blows to the joystick.

\$295.00

IT-RP72

Joystick Plus

The popular joystick version of the Trackball Plus. Buttons can be replaced by switches using the Switch Box which is supplied free. Additional joystick handles: the SoftKnob and T-bar are supplied free also. Device not manufactured to withstand severe blows to the joystick.

\$399.00

IT-NA72

n-ABLER Joystick

With the 5 sub-flush, color coded function buttons it makes for easy navigation and manipulation of objects on the screen. It allows fingertip control with only minimal hand movement, reducing elbow and wrist fatigue. The symmetrical design along with the reversible button functionality allows for left or right-handed use. Ruggedly constructed, the n-ABLER also has a large footprint for stability. It has switchable left and right click buttons; X-Y axis lock and scroll button; adjustable cursor speed and easy 'plug and play' installation. Color LEDs and a buzzer (which can be switched off) provide confirmation of all button operations. PC or Mac compatible.

\$420.00

IT-NA71

n-ABLER Rollerball

A highly adaptable mouse alternative, n-ABLER's large, free moving trackball requires only a light touch. With the 5 sub-flush, color coded function buttons it makes for easy navigation and manipulation of objects on the screen. It allows fingertip control with only minimal hand movement, reducing elbow and wrist fatigue. The symmetrical design along with the reversible button functionality allows for left or right-handed use. Ruggedly constructed, the n-ABLER also has a large footprint for stability. It has switchable left and right click buttons; X-Y axis lock and scroll button; adjustable cursor speed and easy 'plug and play' installation. Color LEDs and a buzzer (which can be switched off) provide confirmation of all button operations.

Compatibility:

USB/PS2. PC or Mac.

\$350.00

IT-NA62

OPTIMA Joystick

This compact joystick does not require fine motor skills and is suitable for a wide spectrum of computer users. OPTIMA Joystick responds to the lightest touch for accurate navigation and precise targeting of objects on the computer screen.

\$295.00

[Details](#)

IT-NA61

OPTIMA Rollerball

The new OPTIMA Rollerball uses durable, optical technology for precise tracking and control of the cursor.

[Details](#)

A silky smooth ball movement and large footprint for stability make the OPTIMA ideal for a wide spectrum of computer users. Robustly constructed with no mechanical wearing parts, the OPTIMA is maintenance free and will give years of untroubled service.

\$169.00

IT-NA51

OPTIMAX Wireless Rollerball

Wireless operation eliminates entanglement with cables - optical tracking gives years of precise and maintenance-free service

[Details](#)

OPTIMAX is the very first wireless trackball specifically designed for users with motor skill difficulties. With an operating range in excess of 10 meters, it is ideal for use with groups or in the classroom to ensure that everyone can join in!

Lightweight and robustly constructed with no mechanical wearing parts, OPTIMAX can be used as either a desktop or hand-held unit. Optical technology ensures precise cursor control and silky-smooth ball movement, and the bi-directional radio link provides interference free operation.

IT-NA51

Orbitrack

[Details](#)

This revolutionary new input device allows computer users to control the direction and speed of the cursor with a single, soft touch.

Requiring no hand or wrist movement, it represents a significant advance in computer input technology and is suitable for all computer users, particularly young children and those with motor skill difficulties and motor impairment.

Orbitrack uses a control ring to manage cursor movement for precise targeting of objects on the screen. Unlike a mouse, trackball or joystick no hand or wrist movement is necessary, and unlike a touch pad, the cursor does not have to be 'driven' around the screen by constant finger movement.

Your personal settings are stored in memory and will be retrieved each time the computer is powered up. Two year warranty.

\$295.00

IT-RO61

Roller II (USB and PS2)

A new design for the popular and durable Roller. Now with colored buttons to make it easier for the student to identify and select the one to press. Standard keyguard to prevent inadvertent button pressing. The keyguard is easily removed if not required. Comes complete with 3 switch ports in case you need to attach switches to replace the buttons. USB connector with PS2 adapter. (The switches illustrated are not included.)

\$169.00

TA-25020

TASH Joystick

Rugged, simple to use joystick for all mouse functions. Smooth proportional action.

- Buttons for left, right, and double left click
- Switch jack for each button
- Timed latch feature adjustable by dip switches
- USB cable provided
- Uses all mouse and accessibility control panel adjustments

Specifications

Size 5 x 4 x 1.3 in (13 x 10 x 3.3 cm)

Height 2.75. in (7 cm)

Force to activate 10 oz (275 g)

\$500.00

IT-RP62

Trackball Plus

A rugged trackball with extra functions. Latching drag as on the Roller and with buttons that allow only up/down or left/right movements of the pointer. Button to control pointer speed. Buttons can be replaced by switches using the Switch Box which is supplied free. Comes with a removable keyguard to avoid unwanted button presses. Threaded inserts underneath allow for easy attachment to a surface or wheelchair tray.

\$399.00
