

Early Learning - Cause Effect & Choice

Item	Description	Photo	Price
Fairy Tales 1 User IT-CT04	Choose and Tell Series <i>Choose and Tell programs are beautifully illustrated adventures that encourage children to make choices and create their own stories.</i>		Fairy Tales 1 User \$98.00
5 Users IT-CT09	The simple framework guides them through an adventure, but the children's decisions make it all their own. They will giggle at the comic situations the nursery rhyme characters find themselves in ... and gasp when legendary heroes face fearsome monsters!		Legends 1 User \$98.00
Legends 1 User IT-CT03	The Program The programs are designed to engage and motivate the user. They are encouraged to respond to the unfolding story on-screen and to make decisions, using a combination of cause and effect and choice-making activities. It also helps the user to gain an understanding of sequences of events.		Nursery Rhymes 1 User \$98.00 Other Options
Nursery Rhymes 1 User IT-CT02	Accessibility You can use a keyboard, mouse, 1 or 2 switches, touch monitor, interactive whiteboard or IntelliKeys.		
5 Users IT-CT07	Choose and Tell characters can be used in activities away from the computer, too. The images can be printed out and black and white versions are available for learners to color in.		
	Links to individual programs: <ul style="list-style-type: none"> • Choose and Tell Fairy Tales • Choose and Tell Legends • Choose and Tell Nursery Rhymes

ST-SBCD Switch Basics

\$115.00

Details

This is a **new version** of the classic Switch Basics that helps students learn how to use a switch. Eight engaging activities **give students experiences from cause-and-effect to row-column scanning**. The program gives you control over the learning experience. You select the activities and place them in the desired order, select the number of presses and more. Use the **data collection to assess student progress** in control of the switch, intentionality and timing. Students have fun as they learn to attend and build switch skills.

IT-SM01 **SwitchIt! Facemaker**
Lets children have fun decoration faces on - and off - the computer

5 Users
IT-SM05

[Details](#)

Add your own photos of children, teachers, parents (anybody!) to SwitchIt! Facemaker and decorate them with hats, beards, glasses, earrings and more. You can also give people different eyes, noses, hair and funny ears, or even spots and face paint. Or try dressing up a picture of the child's pet! Nearly 100 features give you thousands of combinations, engaging students in creative exploration and experimentation.

Screen Shots A cause and effect level adds features to a face in response to a simple switch input. Other options allow all learners to be creative according to their own ability. Suitable for non-readers too. Completed faces are saved to a viewing gallery and can be printed out for further use.

Ideal for cooperative play as well as any topics relating to personal, social and health education (PSHE), modeling (design and technology), art, supporting literacy and encouraging the use of mathematical language. A set of printable resources is included for you to use away from the computer.

SwitchIt! Series

Fun and interesting games to help switch skills

Use a switch to build the elements of an action scene. A final press sets an animated reward going. Configurable options for the number of key presses, switch settings and which activities are displayed. Save your settings and reload later. A two switch option allows for turn taking. Makes wide use of sound and animation to promote motivation.

A second set of improved SwitchIt! titles too - programs with extra muscle and more directly linked to the curriculum.
